Some of our Retouching Services

Clipping Path

100% Hand Made Cut Out

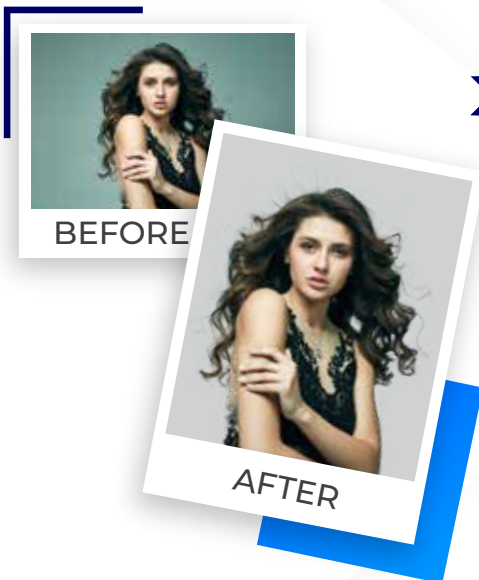

- It is simple to eradicate objects from a background with the help of various Photoshop tools.

Image Masking

Layer, Alpha-Channel, Translucent Masking

- Clipping path is generally used for background removal, but if the image has complex soft edges, outlines, many turns, and curves, this is where the layer masking is needed.

Shadow Adding

Drop, Reflection, Mirror Effect, Original Shadow Creation

- With the help of various types of shadows like, Drop Shadow, Reflection Shadow, Product or Original Shadow; it is possible to reform any dull object into something vibrant and vigorous.

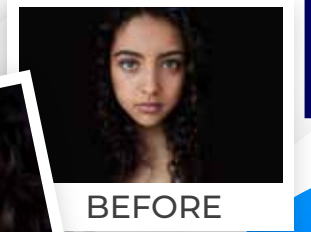

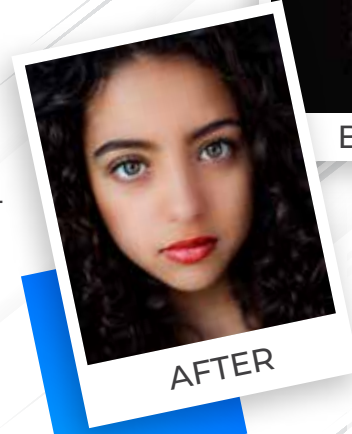

➤ Photo Retouching

High-End Photo Retouching Services

- Image retouching services includes removing spots, changing colors of the image, removing watermarks, blemishes etc.

BEFORE

AFTER

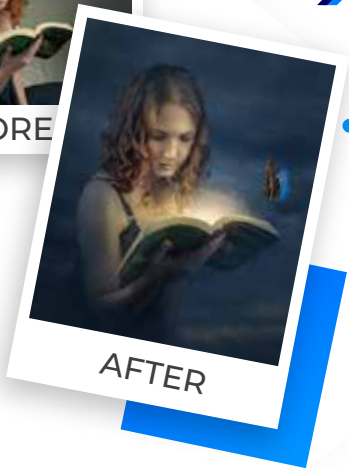

➤ Photo Manipulation

Custom Manipulation

- The process of photo manipulation includes clustering elements together from different sources and creating a perfect end product.

BEFORE

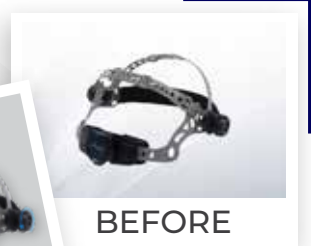

AFTER

➤ E-Commerce Image Editing

Amazon, Ebay Photo Editing Services

- Riseup Labs is specialized in offering e-commerce image editing services as per the standards of every high-end online portal.
